

**Brenlin**  
the long-wearing window  
shade material

**Be sure the window shades you buy  
won't crack and break!**

Ordinary window shade material is made of coarse muslin which is filled with chalk and clay. The wear of daily usage causes this filling to loosen and fall out, leaving the shade full of cracks and pinholes.

**But Brenlin wears and wears**

Brenlin is made of fine, closely woven cloth which contains not a particle of chalk, or clay, or other filling.

It wears and wears. Hangs smooth and straight. No cracks, no pinholes deface it!

Tinted with the finest, fast colors Brenlin Window Shades will not spot in the rain nor fade in the sun. They wear three times as long as ordinary shades.

Come in and see the many rich colorings we have in this long-wearing shade material. Let us show you how little it will cost to shade your windows with Brenlin, and help you select just the tone that will harmonize with the color scheme of your room. Come today.

**Geo. MacKay & Co.**

**Ocala, Florida**

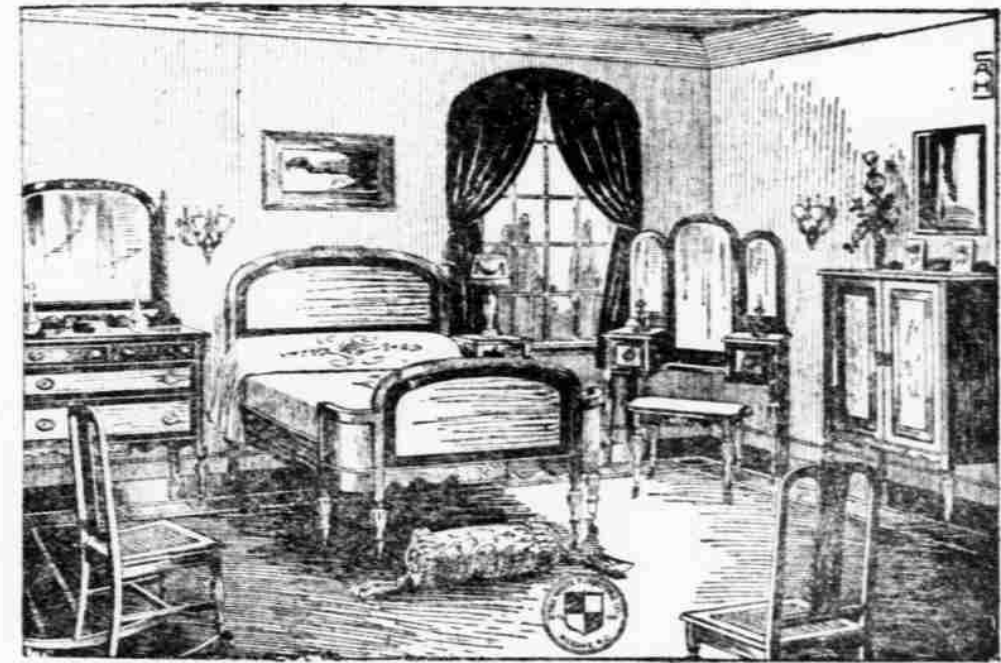

**EDWARD EVERETT HALL JR.**  
Architect and engineer. Has been in the employ of the firm for about a year as draughtsman and construction superintendent.

**F. W. EVANS**  
Native of Georgia. Is connected with the hardware and farming implement departments, and in charge of the shipping and receiving.

**Something Doing.**

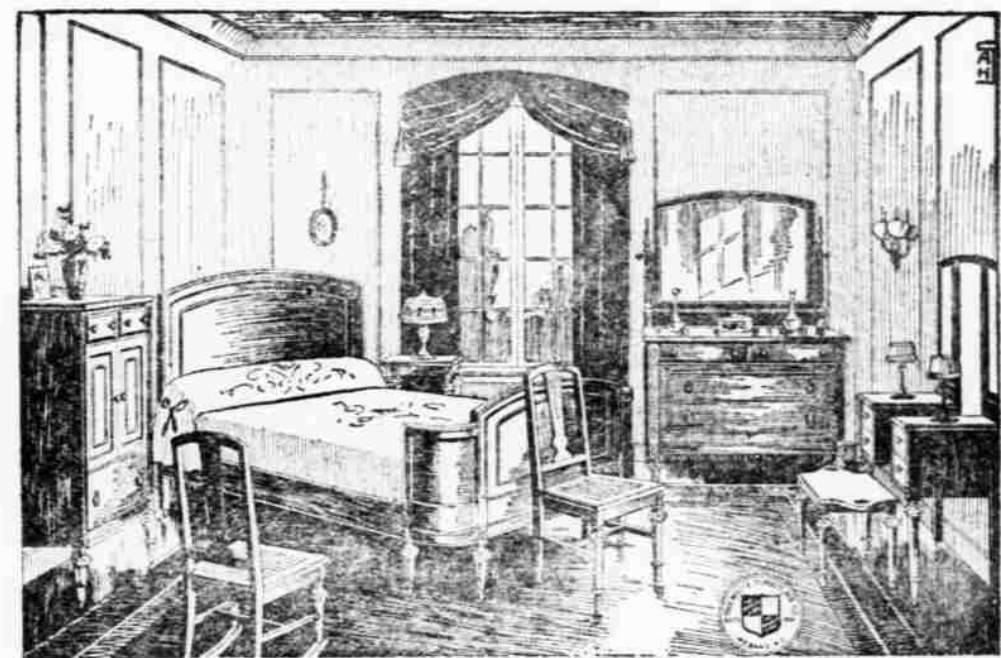

The job is what counts. The world respects the man who works. It has small use or respect for the man who loafs because he feels himself above the job that is offered him. The man who produces something—even though it be nothing more than a day's work at the bottom of a trench, is of more importance to the world than he who loiters for a kid glove situation.—Los Angeles Times.
